

# *The Gardens at Crail Ranch*

*A Native Demonstration Garden  
in Big Sky*

Fall 2019 Report

The Gallatin Invasive Species Alliance teamed up with other local organizations to build a demonstration garden at Crail Ranch using native plants that are wildlife friendly, water wise, and preserving of the historic landscape.

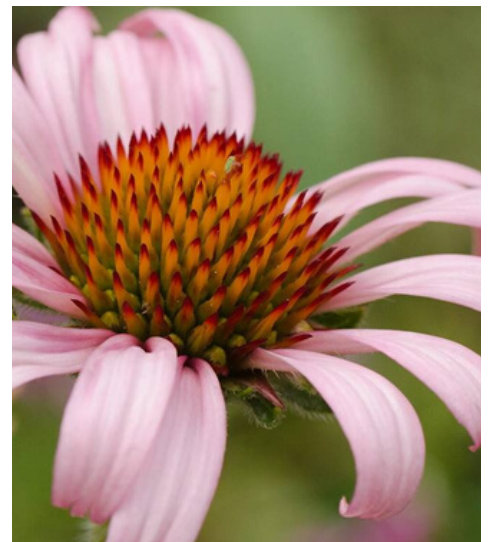

*project

Big Sky Community Organization  
Big Sky Water & Sewer  
Gallatin River Task Force  
Historic Crail Ranch

Once established, native plants are easy to maintain because they are adapted to Montana's temperatures, rainfall patterns, and soil conditions.

*inspire  
educate  
conserve*

The demonstration garden will educate residents, students, and visitors about sustainable gardening, showcase water savings over time, and enhance the Ranch's natural heritage.

# Building the Gardens

*fall 2018*

Donated topsoil from an adjacent construction project was moved and stored onsite, and garden #1 was built.

*spring  
2018*

A cool, wet spring delayed the start of construction. Site excavation, garden beds and gravel paths were completed on July 9.

# Planting and Irrigation

## *planting*

On July 9 & 11, 20 volunteers planted 692 native plants (25 different species) putting in a combined 149 hours!

## *irrigation*

Perimeter rocks were placed around each garden, and irrigation was installed to achieve water conservation goals.

# Mulching & Weeding

## *mulching*

13 volunteers applied shredded cedar mulch over 2 days to conserve water & protect plants, putting in 59 hours!

## *weeding*

Gardens were routinely inspected for weeds during the build, often receiving help from trusted companions.

# Project Costs to Date

## FUNDERS & DONORS

Grants	\$13,000
Bench Sponsors	\$10,000
Garden Sponsors	\$7,500
Direct Partner Support	\$5,000
Donations	\$614

**Total Raised \$36,114**

## EXPENSES TO DATE

Garden & path construction	\$18,695
Plant materials & mulch	\$3,985
Irrigation	\$4,680
Misc supplies & materials	\$1,269

**Total Expenses \$28,629**

## IN-KIND & MATCHING FUNDS

From donated & discounted services, to in-kind support, many individuals, organizations and businesses contributed to make this project a success.

**Total \$19,513**

## VOLUNTEER HOURS

From planting and mulching, to weeding and watering, volunteers were critical to the success of the gardens.

**Total Hours 223**

# Completion of Phase 1 & What's to Come

*phase 1*

All walking paths and 4 gardens were built, planted, mulched, and irrigation was installed.

*still to come*

- building 2 benches out of invasive russian olive wood
- creating and installing garden sponsor signs
- installing an interpretive sign
- developing educational materials & programming

# The Gardens at Crail Ranch

*thank you*

Thank you to our partners, funders, donors, and volunteers for helping make this happen! We can't wait to see the gardens bloom in the following years and become a cornerstone of community conservation.

*#GrowWild*
